

Matchmaking & Networking

1. InfoCenter:

Service to provide information to support innovation actions. The information can relate to lab & test environments, research & expertise and new developments.

2. RawMatTERS Matches:

Events organised to create links between existing technologies and new business models for licensing, joint ventures, linking students to jobs and internships, matching SME needs for skills & expertise.

3. Idea Camp:

Idea and research findings exchange events to generate new initiatives and activities.

4. Intrapreneurship Facilitator:

Events to generate and accelerate intrapreneurship ideas

Validation & Acceleration

5. Up-scaling:

For innovation projects that are a higher Technology Readiness Level and need an additional step for up-scaling and/or implementation. These projects aim to integrate existing technology, de-silo and foster value-chain co-operation and bring technologies to the market.

6. Network of infrastructures:

Mapping service aimed to provide overview and access to facilities available within the consortium including pilot plants, technical centres and analytical and modelling infrastructure.

7. PhD Education:

RawMatTERS will deliver relevant courses, seminars and workshops for PhD students.

8. Master Education:

Entrepreneurial master courses focussing on RawMatTERS themes and industry needs.

9. Continuing Education:

Lifelong learning addressing industry needs and intrapreneurship.

10. Wider Society Learning:

Events and targeted communication to raise society's awareness of RM issues.
